Enthusiastic and motivated software engineering graduate with professional experience, seeking a Front-End Developer position to apply my skills in React, Redux, HTML, CSS, SASS, JavaScript/TypeScript, Node.js, and REST APIs. Passionate about creating immersive, responsive web applications, I am eager to collaborate with professional developers, leveraging my technical expertise and collaborative mindset in a supportive work environment.

SKILLS

Experienced in developing responsive full stack web applications in React, JavaScript, TypeScript, Scss/Sass, HTML/CSS, Node.js
Experience in React Server-Side Rendering
Strong collaboration and communication skills
Lifelong learner with a focus on continuous improvement

TECHNICAL SKILLS

Frontend & Backend technologies: React, Typescript, HTML, CSS, Redux, Sass/Scss, JavaScript, Nodejs, Express Js, Bootstrap, MUI, TailwindCSS, REST APIs, vite, vitest
Databases: MongoDB, MySQL, MS SQL
OS: OSX, Windows

WORK EXPERIENCE

Frontend Developer & UI/UX Designer

Jul 2024 - Oct 2024

Pilot X Technologies | Toronto, ON

- Developed and optimized landing page for the startup using React, TypeScript, and SCSS, focusing on accessibility and performance improvements.
 - Worked closely with technical product owners to understand the requirements, develop them accordingly and get user feedback
 - Developed prototypes for web/mobile apps using Figma to get user feedback.
-

PROJECTS

Poetry Capstone

Aug 2024 - Sep 2024

[Demo](#) | [GitHub Link](#)

- Designed and implemented a full stack capstone project for exploring a collection of original poems and sharing one's own with authentication and an admin dashboard
- Technologies used: React, JavaScript, SCSS.

Stylist portfolio

Apr 2024 - May 2024

Demo | GitHub Link

- Designed and implemented a web app for a fashion stylist and enabled her market outreach by providing her with an online presence - 766 page views within two weeks. Achieved a 90% optimization improvement.
- Technologies used: React, TypeScript, SCSS.

Blog Poise

Apr 2024

Demo | GitHub Link

- Created a blog page with blog posts, achieved 99% Performance, 100% Accessibility, and 92% SEO, including Blog, About and Contact pages.
- Technologies used: React, TypeScript, SCSS.
